

perma STAR VARIO

Electro-mechanical, weekly and monthly time settings.

PART #	DESCRIPTION
SDRIVEVARIO	STAR VARIO DRIVE UNIT ONLY
SF01SVL250LC	STAR VARIO 250CC PERMA MULTI-PURPOSE GREASE 220-2 & BATTERY
SF01SVM120LC	STAR VARIO 120CC PERMA MULTI-PURPOSE GREASE 220-2 & BATTERY
SF10SVL250LC	STAR VARIO 250CC PERMA FOOD GRADE GREASE & BATTERY
SF10SVM120LC	STAR VARIO 120CC PERMA FOOD GRADE GREASE & BATTERY
A620P	SUPPORT FLANGE FOR STAR VARIO ¼" BSP

perma STAR VARIO Installation Kits available on request.

perma STAR VARIO BLUETOOTH Electro-mechanical & PLC Controlled, weekly and monthly time setting options, four cartridge sizes.

perma STAR VARIO consists of a reusable electro-mechanical drive unit and a single-use lubricant cartridge. Because the lubricator is mechanically driven the dispensing rate is independent of ambient temperature and back pressure*. Inspection of the perma STAR VARIO is made easy via the combination of the transparent lubricant cartridge, a flashing LED alert system and an LCD display screen which communicates the status of the lubricator to maintenance personnel.

perma STAR VARIO is a single-point, automatic lubricator which is suited to a broad range of bearing and chain applications. perma STAR VARIO is ideal for applications which demand precise grease delivery or for operating environments which include significant temperature fluctuations. The remote installation kits for perma STAR VARIO provide practical solutions for lubricators to be installed at safe and easy to reach locations.
